**DETAILED ACTION**

***REASONS FOR ALLOWANCE***

1. Claims 16, 18 and 21 – 36 are allowed.
2. The following is an examiner’s statement of reasons for allowance:

The prior art of record does not teach or suggest, either singularly or in combination, at least the limitation of a microcomponent comprising: a hermetically-sealed microcavity, a cover in which at least one hole is formed, the cover being one solid layer that delineates the microcavity and encloses the top side, the left side, and the right side of the microcavity, a plug forming a unitary piece made of polymer covering only one hole and a part of the cover over the periphery of the hole, a sealing layer hermetically sealing the microcavity, the sealing layer being disposed above the plug and the cover, the sealing layer and the plug being formed by distinct materials. Wan (U. S. Pat. No. 7,429,495) and Cheung (U. S. Pub. No. 6,446,326) teach a microcomponent comprising: a hermetically-sealed microcavity, a cover in which at least one hole is formed, the cover delineates the microcavity and encloses the top side, the left side, and the right side of the microcavity, a plug made of polymer covering only one hole and a part of the cover over the periphery of the hole, a sealing layer hermetically sealing the microcavity, the sealing layer and the plug being formed by distinct materials. However, Wan and Cheung do not teach the cover being one solid layer that delineates the microcavity and encloses the top side, the left side, and the right side of the microcavity, a plug forming a unitary piece made of polymer covering only one hole and a part of the cover over the periphery of the hole and the sealing layer being disposed above the plug and the cover as set forth in claims 16, 34 and 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
